Kunnskapsoppsummering

**BACKGROUND
&
AIMS**

Motivasjon har fått økt oppmerksomhet

Kunnskapsoppsummeringer (systematic reviews)

United Nations Convention on the Rights of the Child

If we want to know what is actually in the interest of the child, **it is logical to listen to him or her**

(United Nations, 1989; article 12:1)

Fokus på **begynneropplæring** (K-5)

Funn fra **empiriske studier** (fra 1996 til 2020) som *spesifikt* undersøke skrivemotivasjon gjennom **elevenes egenrapporterte data** (f.eks. spørreundersøkelser og intervjuer)

Førskningsspørsmål

Hvilke **faktorer** påvirker **motivasjon for skriving** av **elever i begynneropplæring (K-5)** ifølge **elevenes egenrapporterte data**?

Alle førskoleelever i kontrollgruppe: ville spørre *lærere* eller *foreldre* for hjelp hvis de satt fast

Alle i intervensjonsgruppe: pekte på *strategier* eller *verktøyer* som kunne hjelpe dem med skriving, som f.eks. **ABC-plakater, bildeordbøker, og veggutstillinger med høyfrekvente ord** (Snyders, 2014, p. 435)

Instructor

INSTRUKTØR

- Alle studier, enten **direkte** eller **indirekte** peker på **læreren** som et **avgjørende element** som påvirker elevenes motivasjon for skriving.

Lærerpåvirkning kan utarte seg på
mange måter

oppfatning av lærerens skriveglede
(Zumbrunn et al., 2019)

lærerenes mål for skriveopplæringen
(Nolen, 2007)

*vellykket implementering av
tiltak/intervensjoner* (Chohan, 2011)

Ikke bare lærere

*forskere
foreldre*

*mer kompetente andre
besøkende invitert av lærere*
Skrivefelleskap (Writing community)

f.eks. *skuespillere fra teateret* (Lee &
Enciso, 2017)

“individuelle lærere er viktigere enn strategier eller tilnærminger” (Pollington, 2001, p. 249)

Discussion and implications for classroom practice

- **Teacher:** Lærerens **formidlende rolle**
 - ✓ Planlegging
 - ✓ Implementering (tilpasset opplæring)
 - ✓ Vurdering

Troia et al. (2012)
anbefaler "å gi
valgmuligheter så
ofte som mulig"
(p. 12)

- **Task:** Skrivning er **allsidig**, og skriveoppgaver bør gjenspeile dette

- **Tool:** **Digitale verktøy** ser **ikke** ut til å være en motivator i seg selv

Konklusjon

Elevenes egenrapporterte data: rik datakilde som kan hjelpe oss å forstå hvordan vi bedre kan engasjere elevene til å skrive.

Dette kan være spesielt viktig for denne aldersgruppen, når **elevenes egne forestillinger** kan være **mindre dypt forankret** og **mer formbar**.
